EDUCATION

University of Punjab Bachelor of Information Technology	Lahore, Pakistan 2019 – 2023
Govt. Islamia College Civil Lines F.Sc (Pre-Engineering)	Lahore, Pakistan 2017 – 2019

PROFESSIONAL EXPERIENCE

JV Lands Private Limited Property investment company	Lahore, Pakistan
React Native Developer - Developing a property app to streamline listing, renting, and joint venture processes, enhancing user experience for property types like Residential, Commercial, and Agricultural. - Implemented conditional field visibility for forms (e.g., bedrooms, floors for Houses), improving form usability by 30%. - Integrated Barikoi API for address autocomplete, ensuring accurate location data (latitude, longitude) submission, matching web app functionality.	December 2024 – Present
DSME Global Links Software company	Lahore, Pakistan
React JS Developer - Built and maintained React-based applications, including property listing and form components, increasing user engagement by 20%. - Enhanced form validation for fields like area and rent price, restricting inputs to numbers using regex, improving data accuracy. - Optimized dropdown and scroll functionalities for property filters, streamlining user interaction with city-based listings.	July 2023 – November 2024

PROJECTS

Real Estate Accounting Admin Portal React.js Frontend Developer - Developed admin modules for plot booking, customer/dealer ledgers, payments, and financial reporting. - Integrated backend APIs for dashboards, reminders, vouchers, bank transactions, and role-based permissions. - Improved UI/UX with responsive layouts, data tables, filters, print views, and export functionality. <i>Tech: React, React Router, Context API, Bootstrap, Material UI, REST API, JWT</i>
JV Lands — Real Estate Platform React.js & React Native Frontend Developer - Built the JV Lands property portal (buy, sell, rent, JV, agriculture) as a React.js web app and React Native Android/iOS apps, published on Google Play and App Store. - Work included property listings, user auth, employee verification, testimonials, app download/QR flow, API integration, and responsive UI. <i>Tech: React.js, React Native (CLI), REST APIs, Tailwind CSS</i>
JV Dialer — Auto-Dialer App for Sales Teams React Native Frontend Developer - Built auth flows, Excel/CSV import, contact list and filters, call workflow with native dialer and duration tracking, History screen, API integration, local persistence, and Android release setup. - Features: import Excel contact lists, place outbound calls, update lead status, and view call history with live analytics (pending/done calls, talk time). <i>Tech: React Native, React Navigation, Context API, REST APIs, axios, react-native-fs, react-native-call-log</i>
Surface Wallpapers — Android Wallpaper App React Native Frontend Developer (Android) - Built an Android wallpaper app with browse/search, favorites, downloads, and a premium paywall. - Integrated Firebase (Firestore), Google Play Billing for subscriptions, and AdMob for ads.

- Used React Navigation, Zustand, React Query, Reanimated, and FastImage for navigation, state, data fetching, animations, and image performance.

Tech: React Native CLI, Firebase (Firestore), Google Play Billing, AdMob, Zustand, React Query, Reanimated, FastImage

Trackly Pro — Attendance & Outlet Tracking App

React Native Frontend Developer

- Built a React Native app for retail field teams: attendance, sales, stock, and store surveys.
- Implemented offline sync, GPS check-in, camera uploads, and role-based UI (BA / Supervisor).
- REST API integration, maps, image compression, and error-resilient upload flows.

Tech: React Native, REST APIs, GPS/Maps, Camera, Image Compression

Talash e Gumshuda — Missing Persons App

React Native Frontend Developer

- Built auth (Sign In, Sign Up, OTP), find/search with filters, add/edit person forms (Known/Unknown), photo resemblance matching, person details, settings, and reusable success modals.
- Implemented on iOS and Android using React Navigation, image picker, and date pickers.

Tech: React Native, React Navigation, Image Picker, Date Pickers

RishtaApp — Matrimonial Mobile App (Android/iOS)

React Native Frontend Developer

- Built auth and OTP flows, multi-step profile creation, searchable match listings with filters, profile detail screens, ID verification UI, chat, favourites, and settings.
- Integrated REST APIs, reusable modals/components, and Play Store update prompts.

Tech: React Native, React Navigation, AsyncStorage, REST APIs, Image Picker, ML Kit OCR

ACADEMIC EXPERIENCE

Fake Product Review Monitoring System

Lahore, Pakistan

Designed to identify and flag potentially fake reviews

Group Leader

June 2022 – July 2023

- Led research on product review trends, analyzing customer feedback to improve system accuracy by 15%.
- Developed a monitoring tool using basic HTML/CSS and Python, identifying key patterns to enhance product quality assessment.
